

Aravind Kapilavayi

Product & Process Quality Expert

+91-8050644757 # www.linkedin.com/Aravind.Kapilavayi # Aravind568@gmail.com

Results-driven Product and Process Quality Experience with 14 years in the automotive, Avionics and IT industries, specializing in process optimization, product quality assurance, and compliance with industry standards. Proven track record of implementing robust quality management systems, leading cross-functional teams, and driving continuous improvement initiatives to enhance product reliability and customer satisfaction. Adept at utilizing Six Sigma methodologies, conducting thorough root cause analysis, and managing supplier quality to ensure adherence to stringent quality standards.

SKILLS

- **Quality Standards:** CMMI 1.3,2.0&3.0, ISO9001, AS9100, ISO27001, DO178B, DO178C, ASPICE 3.1 & 4.0, Functional Safety, Cybersecurity, ITIL, Lean, Assessments, Reviews & Audits
- **Agile Methodologies** – Scrum, Kanban, SafeAgilist, Devops assessments and Automation maturity assessments
- **Tools:** MS Office (Word, Excel, PowerPoint), Rhapsody, MINI Tab, DOORS, Integrity, JIRA,
- **Technology:** C, C++, Java, embedded C, HTML
- **Version Control:** Git, CM Synergy, DOORS, PVCS, Clear case, HQMS, Aspire, Clear Quest
- **Software Tools:** Visual Studio Code
- **Problem Solving:** Tools, Statistical analysis and Metric analysis
- **Team Collaboration:** Strong communication and teamwork skills
- **Management:** Quality management and Project Management
- **Sectors:** Aero, Automotive, IT & healthcare

CERTIFICATIONS

- ❖ ASPIICE Provisional Assessor for 3.1 & 4.0
- ❖ Certified Lead Auditor for ISO 9001 QMS & ISO 27001 Information Security.
- ❖ Six Sigma Black belt for TUV SUD
- ❖ CSTM (Certified Software Test Manager) from ISTQC Hyd.
- ❖ Certified Scrum Master from Scrum Alliance
- ❖ Certified CMMI 2.0 & 3.0 Associate
- ❖ CMMi Assessment Scampi A & Appraisal Team Member
- ❖ Honeywell Supplier Audit Specialist.
- ❖ Certified ITL V4 Foundation from AXELOS
- ❖ Certified Safe Agilist from ScaleAgile
- ❖ Honeywell Certified PDQA Specialist for DO 178b &C
- ❖ Infosys Certified Lean Expert
- ❖ Trained on Functional Safety ISO 26262
- ❖ Trained on Automotive Cyber security ISO 21434

EDUCATION

- ❖ Post Graduate Certificate Programme in Cyber Security Management and Data Science In IIM Nagpur (Pursuing)
- ❖ MBA (PGDM) in Operation & Quality Management from IMT Institute of Management Technology in 2022
- ❖ Master's Degree in Computer Science &Engineering from Acharya Nagarjuna University in 2011.
- ❖ Bachelor's Degree in Computer Science &Engineering from Jawaharlal Nehru Technological University in 2008.

PROFESSIONAL EXPERIENCE

Principal Quality Manager | QNX – BlackBerry INDIA Pvt Ltd | November 2024 - Present

- ❖ Ensuring Process adherence in Conducting and Implementing Reviews and Audits With respect to ISO 26262 & ISO 21434 – SEOOO
- ❖ Responsible for Site Quality Activities – QMS training, Internal Audits, Supporting External audits and Support functions
- ❖ Coordinating with Ottawa Team for Process and product Quality activities.
- ❖ Responsible for performing quality gate checks for each release and ensure the deliverables.
- ❖ Reviewing and Improving QMS across the Organization

Technical Lead | ZF INDIA Pvt Ltd | November 2022 - Present

- ❖ Implementing the A SPICE processes in systems & Software Engineering division projects.
- ❖ Performing Gap analysis for the projects with respect to ASPICE Software levels
- ❖ Part of ASPICE Internal and External Assessments
- ❖ Reviewing Project plans and Quality plans. Ensuring compliance to QMS (Stages)
- ❖ Responsible for project monitoring and controlling Project and Quality activities.
- ❖ Ensuring Process adherence in Conducting and Implementing functional safety, e.g (Safety Plans, FUSA, HARA, FMEA, Risk Assessments and compliance to ISO 26262)
- ❖ Ensuring Process adherence in Conducting and Implementing Cyber security, e.g (Cyber security Plans, Security Controls, TARA, Risk Assessments and compliance to ISO 21434)
- ❖ Establish and communicate regular project compliance status to the counterpart (German Team).
- ❖ Process modelling in the STAGES tool based on the inputs from the process leaders.
- ❖ Responsible for conducting the Internal audits to ensure the compliance.
- ❖ Responsible for performing quality gate checks for each release and ensure the deliverables.
- ❖ Performing Release audits.
- ❖ Training the project teams on Org Standards / Ext Standards and Best Practices

Quality Manager | Infosys Ltd | May 2020 – November 2022

- ❖ Handled Multiple projects in different Sectors (Aero, Auto, Discreet) in MFGADM
- ❖ Participating in Projects lifecycle reviews SOW, Requirements, Design, Code, testing, Deployment and Release and ensuring the Process is Followed across the Lifecycle
- ❖ Guiding the Projects teams in Implementing Organization Initiatives like Lean, Engineering Excellence, Improving Automation, Continuous Integration, Testing, Security and Deployment, for Both Development, Maintenance & Production Support Projects
- ❖ Planning and Performing Monthly BEST Audits Including Automation and CI/CD Assessments.
- ❖ Supporting Projects for Implementing Agile Methodologies Like Scrum, Kanban etc
- ❖ Preparing Team for External Audits like CMMI, AS9100 & ISO Certification & Surveillance Audits
- ❖ People Management handling Multiple Teams in Guiding, Getting Buy-in and resolve Issues for Organization Initiatives.
- ❖ Involved in Providing requirements and Monitoring and Performing UAT for development of Inhouse Tool for Project Management and Lifecycle management Tools
- ❖ Collecting and Analysing Organizational Metrics to Publish the OUTCOMES and ensuring Proper RCA performed for Deviation if any
- ❖ Participating in Different TEAM , Scrum, Customer calls and Ensuring the Right Actions and tracking for closure.
- ❖ Upgrading the Knowledge to Support the Project teams on Different Standards and Process for a successful future Endeavours
- ❖ Supporting SEPG activities
- ❖ Leading EQA Team {Planning, tracking, Monitoring and Reporting}
- ❖ Leading Audit team across organization {Planning, Tracking, NC reporting and NC analysis to Senior management.
- ❖ Communicating with relevant stakeholders and Customers on regular basis
- ❖ Metrics collection and analysis and triggers necessary corrective/preventive actions.
- ❖ Metrics baseline and tracking.
- ❖ Identify new process needs inline with standards and ensure the Process Improvements
- ❖ Analysis on Internal review/Audits Comments and defect analysis, Ensure the process corrections
- ❖ Performing RRCA for Post Release Defects

Deputy Manager | Hyundai Mobis India | Jun 2019 – March 2020

- ❖ Responsible for maintaining process compliance for MULTIMEDIA (Development of Audio, Video, Navigation, Telematics systems) and CHASSIS MECHA (Air bags, Steering systems), ADAS (RADAR, LIDAR projects)
- ❖ Implementing the ASPIICE processes in systems & Software Engineering division projects.
- ❖ Performing Gap analysis for the projects with respect to ASPIICE Software levels
- ❖ Reviewing Project plans and Quality plans. Ensuring compliance to QMS (Stages)
- ❖ Responsible for project monitoring and controlling Project and Quality activities.
- ❖ Establish and communicate regular project compliance status to the counterpart (German Team).
- ❖ Process modelling in the STAGES tool based on the inputs from the process leaders.
- ❖ Responsible for conducting the Internal audits to ensure the compliance.
- ❖ Supporting SEPG activities
- ❖ Leading EQA Team {Planning, tracking, Monitoring and Reporting}

- ❖ Leading Audit team across organization {Planning, Tracking, NC reporting and NC analysis to Senior management.
- ❖ Communicating with relevant stakeholders and Customers on regular basis
- ❖ Metrics collection and analysis and triggers necessary corrective/preventive actions.
- ❖ Metrics baseline and tracking.
- ❖ Identify new process needs inline with standards and ensure the Process Improvements
- ❖ Analysis on Internal review/Audits Comments and defect analysis, Ensure the process corrections
- ❖ Performing RRCA for Post Release Defects
- ❖ Responsible for performing quality gate checks for each release and ensure the deliverables.
- ❖ Performing Release audits.
- ❖ Training the project teams on Org Standards / Ext Standards and Best Practices

Sr.Product Quality Engineer | Honeywell India | April 2015 – Jun 2019

Worked for Various Aero Clients like **Airbus, Boeing, pratt & Whitney & UTC** on different airborne software having Integrated Modular Avionics (IMA) E2E lifecycle. Eg **Pneumatic and Wing Ice Protection System Applications, Cabin Pressure Systems , Radars, Displays & Navigations**. W.r.t DO 178 B & C Software Levels Hardware Qualifications tests for LRU's

- ❖ PDQA Specialist for DO 178 B & C
- ❖ Supplier Audit specialist and Audited Honeywell Suppliers
- ❖ Preparing Estimation for PDQE Operations
- ❖ Supporting in Process creation/tailoring as per Project Need
- ❖ Part of Project Initiation and requirement gathering
- ❖ Performing Quality checks & Release audits as per DO – 178 B for Avionics Software.
- ❖ Ensure the process is in compliance with plans as per DO178b.
- ❖ Involving in project management activities, like project plan, Configuration plan, risk plan, estimations, Quality plan ensuring that they are in compliance with DO178B (AS9100C, ISO 9001:2008 & CMMI L5).
- ❖ Part of CCB (change Control board)
- ❖ Ensuring On Time Delivery by monitoring Implementation & execution plan & sensitizing the management on foreseen Risks
- ❖ Active participation in Estimation, RISK, Customer Meetings.
- ❖ Tracking & monitoring project as per MPP (Microsoft Project plan).
- ❖ Coaching team on Process. Identify Process gaps and ensuring the gap was mitigated also check that the action taken was appropriate.
- ❖ Supporting Projects teams in External Audits/Surveillance audits Like (AS9100C, ISO 9001:2008 & CMMI L5)
- ❖ Reviewing the artifacts on sampling basis.
- ❖ Participating in Requirement, Design, Code , Integration, Test and Hardware reviews and assessments. Including Functional safety (FMEA & Risk Analysis) for Level A & B Software's
- ❖ Performing Requirement, Implementation, V&V, Completion and Conformity Audits.
- ❖ Performed SOI#3 Preparation Audits.
- ❖ Preparing SQAR's for delivery.

- ❖ Performing In-Process checks, witnessing the test execution.
- ❖ Performing Software Traceability Audit.
- ❖ Performing Software Configuration audit.
- ❖ Monitoring the project activities & ensuring the transition criteria is met.
- ❖ Auditing Honeywell Suppliers

Sr.Product Quality Engineer | Cyient Ltd | Jan 2012 – March 2015

Worked for Various Aero Clients like **Boeing, pratt & Whitney, UTC & ELBIT Systems** on different airborne software having Integrated Modular Avionics (IMA) E2E lifecycle. Eg **Pneumatic and Wing Ice Protection System Applications, Cabin Pressure Systems, Radars, Displays & Navigations**. W.r.t DO 178 B & C Software Levels. **Hardware Qualifications** tests for LRU's

- ❖ Implementing/Supporting/Ensuring CMMI DEV V1.3 L5 and other Avionics standards and Processes with Continues Process Improvements
- ❖ Develop & maintain standards, policies, processes, methods, or procedures in QMS
- ❖ Ensuring Avionics software compliance W.r.t DO178b
- ❖ Supporting the projects for Re-Certification & surveillance audits (ISO 9001:2008, ISO 27001,AS9100D).
- ❖ Participating in Requirement, Design, Code , Integration, Test and Hardware reviews and assessments. Including Functional safety (FMEA & Risk Analysis) for Level A & B Software's
- ❖ Performing Requirement, Implementation, V&V, Completion and Conformity Audits.
- ❖ Performed SOI#3 Preparation Audits.
- ❖ Preparing SQAR's for delivery.
- ❖ Performing In-Process checks, witnessing the test execution.
- ❖ Performing Software Traceability Audit.
- ❖ Performing Software Configuration audit.
- ❖ Milestone tracking for CAT1 deliveries
- ❖ Communicating with Customer's and Counter parts on daily basis.
- ❖ Metrics collection and analysis and triggers necessary corrective/preventive actions.
- ❖ Metrics baseline and tracking.
- ❖ Identify new process needs inline with standards and ensure the Process Improvements
- ❖ Analysis on Internal review/Audits Comments and defect analysis, Ensure the process corrections
- ❖ Performing RRCA for Post Release Defects
- ❖ Identifying Kaizen's (Process Waste Elimination) & Performing VSM.
- ❖ continually strive to improve efficiency and effectiveness of existing process
- ❖ Key Role in Risk management (Identifying, Analysis, Actions, Risk review)
- ❖ Issue tracking & Closure.
- ❖ Monthly PCA (gap analysis) & Configuration Audits
- ❖ Monitoring the Project status & Health on daily basis & communication same to client. Closely working with Project team & sensitizing them on Risks & Deviations to ensure On time delivery.

- ❖ Performed as internal & Cross functional Auditor.
- ❖ Participated in Innovation Weeks and WIDS for projects
- ❖ Training the team on QMS & Induction training to new joiners.
- ❖ Internal Auditor Audited Projects groups, HR, Finance, Training and IT Security departments
- ❖ Supported 4G BPCU Qualification (Bus Power Control Unit) LRU for Qualification test in Wipro Labs

Agile Support:

- ❖ Training on Agile/SCRUM to project teams
- ❖ Participated in Sprint Plans.
- ❖ Reviewing the Sprint Plan & Auditing the release artifacts
- ❖ Reviews Release plan & Roll Back plan
- ❖ Guiding the team on Scrum Process.

Information Security :

- ❖ Responsible for overall implementing the ISMS Policy, Procedures, Practices
- ❖ Responsible for maintaining the ISMS documents, Control of ISMS records and Control of documents
- ❖ Maintain ISMS documentation in coordination with ISMS core team
- ❖ Select controls and risk mitigation
- ❖ Monitor ongoing compliance with security standards
- ❖ Performing risk assessments by using ServiceNow

Quality Engineer | RCI – Group of DRDO | Jan 2009 – March 2011

Worked for various Products of Missiles airborne software testing happening in RCI – DRDO e.g LCA, MRSAM, LR SAM, AGNI Missile categories.

- ❖ Understanding the requirement.
- ❖ Static analysis using RTT & LDRA
- ❖ Preparing Test Data's for the test cases.
- ❖ Preparing Test Environment
- ❖ Generating the Test Scripts for the derived Test Cases.
- ❖ Defect Tracking and reporting Bugs.
- ❖ Analysing the software using QA tools and Ensure the assurance by calculating Quality metrics
- ❖ Preparation of static reports and code coverage reports
- ❖ Preparing Traceability reports
- ❖ Reviewing the documents of SRS and SDD as per standards
- ❖ Reverse Engineering graphs has been drawn to this code
- ❖ Status has been checked for modified documents
- ❖ Preparation of test cases for unit and module
- ❖ Executed test cases and Scripts.
- ❖ Defect Tracking and reporting the Bugs.
